☞ A FEW SUGGESTIONS—If you failed to get a good stand of Cotton, you might consider CORN instead; not too late. Also consider Sorghum Almum, Millet, Sorgo, Grain Sorghum, Piper Sudan. MARLATE is indispensable to dairymen; has other uses. Hay time is here and we have some of the best BALER TWINE to be had. See inside.

GRANULATED 2, 4-D KILLS POND WEEDS - - - - - - Agricultural workers have stamped their approval on this product—pellet form, instead of liquids, to kill many water weeds. Pellets are easier to apply; safer to use. Tests show no damage to cattle that drink the water, or fish. Treat half the pond first; then the other half in 30 days. Get information sheet. Use 100 lbs. per acre, price is 33c lb. We have this in 50 lb. bags. ORDER NOW! Improve the fishing in your ponds or lakes!

§Deltapine Smooth Leaf			Out
Fox 4, 75-79% germ.			Out

Farmers call **D&PL 15** "the cotton that won't quit." **Deltapine Smooth Leaf,** released 1957, the **World's First** commercial smooth leaf cotton (almost hairless on underside), specially designed for machine harvest. It and **Fox 4** outyield D&PL 15 9% for 8-year average at Breeder's. **Fox 4** is early maturing, "fruits" longer, more tensile strength, good tolerance to wilt, easy to pick.

§Deltapine Smooth Leaf runs 70-74% germination.
